Renting a property

Summergate Lodge has 14 one and two bedroom apartments for rent.

Retirement Living apartments are available to rent for those over the age of 60, or aged 55+ and in receipt of disability benefits. In the majority of cases you will need to be nominated by your local authority who will assess if you are eligible. You will also need to be unable to purchase a property through shared ownership

You can put your name forward by contacting our New Homes Team on 0345 608 4021 or newhome@housing21.org.uk

Things I need to pay for

An initial Assured Shorthold Tenancy will be offered and if all goes well, we will convert this to an Assured Tenancy after the initial 12 month period. A weekly rent is payable under either tenancy and the rent includes a sinking fund payment. There is no initial deposit on commencement of a tenancy, but we do require four weeks' rent in advance. Our rents are Housing Benefit eligible.

Living in Retirement Living means that the Local Housing Manager is on hand during the week to take care of the smooth running of the scheme, giving you more time to enjoy life. When you rent a Housing 21 property, you'll pay rent and a service charge for the upkeep of the building and grounds. You'll also be responsible for paying individual utility bills, contents insurance, TV licence and Council Tax.

Free WiFi is provided in the communal lounge, but it is your responsibility to arrange your own broadband supplier and telephone service.

In some cases you might be eligible for support to pay your rent, Council Tax and /or your care charges (where applicable). Your local authority will provide information about this when you contact them.

Service charges

This covers the lighting, heating, maintenance and cleaning of the communal areas and gardens, external window cleaning, buildings insurance and estate management. It also includes the payment towards the Local Housing Manager and hardware for the emergency call system which is Housing Benefit eligible.

The service charge is variable. We do our best to ensure charges are kept to a minimum so review these annually on 1 April with any surplus or deficit rolled over to the next financial year. We hold an annual meeting with residents to discuss the service charge accounts and answer any questions giving at least 28 days' notice of any adjustment to be made in the following financial year.

More information on your service charge can be found online in the resident information section of our website www.housing21.org.uk/resident-information

Our service charge is Housing Benefit eligible.

Insurance

Housing 21 is responsible for the buildings insurance. Contents insurance is your responsibility and we strongly recommend that you arrange contents insurance for your home.

Support charge

This charge is made to cover the Local Housing Manager's hardware costs for the emergency call system that are not housing benefit eligible

The rates for each charge can be found in the Summary of Charges for those renting a property – available from the New Homes Consultant.

Buying a property

Summergate Lodge has 12 one and two bedroom apartments available for shared ownership for people over the age of 60, or aged 55+ and in receipt of disability benefits.

If you are considering buying a shared ownership, leasehold property, whilst there are not any nomination arrangements in place, priority will be given to those who have a local connection.

Once you have made the decision to buy a property you will need to appoint a solicitor or conveyancer to handle the sale for you. We also encourage you take financial advice and speak to family and friends. We are not able to offer financial advice but can offer advice regarding claiming state benefits.

Older People's Shared Ownership (OPSO)

Shared ownership for people aged 65 and over, is a purchase option where you can buy a percentage of the full market value of a property, from 25% to a maximum of 75%. The aim is to offer an affordable purchase option, allowing you to sell your current property and either release equity and/or enjoy a mortgage free retirement, whilst protecting investment for you and your loved ones in the future.

Both options mean that you can have a more financially secure retirement.

Key information for shared ownership:

- Buying a shared ownership property is the same as buying any property on the open market, you will have full and exclusive access to the property you purchase
- Properties are sold leasehold for a term of 999 years

- A service charge is payable by all, regardless of the percentage owned
- A monthly rent will be charged by Housing 21 in respect of the unpurchased portion of the property. Where a 75% purchase is made, no rent is payable on the final unpurchased 25% share. The shared ownership rent is housing benefit eligible
- The owner is responsible for internal repairs to the property. Housing 21 will maintain the building and communal areas

Things I need to pay for

During the week, the day-to-day running of the scheme is taken care of by the Local Housing Manager, giving you more time to enjoy life.

When you buy a Housing 21 Retirement Living property you will pay rent on the unpurchased portion of the property (if purchasing less than 75%) and a service charge for the upkeep of the building and grounds. You'll also be responsible for paying individual utility bills, contents insurance, TV licence and Council Tax.

Free WiFi is provided in the communal lounge, but it is your responsibility to arrange your own broadband supplier and telephone service.

Service charge

We hold an annual meeting with residents to discuss the service charge accounts and answer any questions giving at least 28 days' notice of any adjustment to be made in the following financial year.

The service charge payment includes a contribution to the sinking fund and there is an option to defer this until you eventually sell, to help with living costs during your residency.

Restrictions

On resale

Written notification of the intended sale must be given to Housing 21. Housing 21 have a right to find a purchaser within 56 days, after this time the property can be placed on the open market at no more than the valuation price.

Purchasers must be over 65 and be approved by the Local Housing Manager.

Subletting

Subletting is not permitted.

What is the sinking fund?

The cost of maintaining the building is shared between all properties. The sinking fund is a reserve fund that is used to offset the cost of major repairs or replacements in the future. Examples include the roof, windows, doors, driveways and paths. Having a sinking fund protects against large unexpected bills and may be attractive to new purchasers when resold. A sinking fund contribution is included in the service charge and this element can be deferred until resale. The sinking fund is reviewed annually via a stock condition report on the building.
