

## Summary of costs

The information in this document is for the **standard shared ownership model**. There are variations of shared ownership which have different features. For more information on the variations, see the 'Key information about the home' document.

When you are looking for shared ownership homes, you should always check the Key Information Document to see which model covers that specific home.

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should take independent legal and financial advice.

This summary of costs document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

It does not form part of the lease. You should carefully consider the information and the accompanying lease and discuss any issues with your legal adviser before signing the lease.

Failure to pay your rent, service charge, or mortgage could mean your home is at risk of repossession.

The costs in this document are the costs as at the date issued. These will increase (typically on an annual basis) and you should take financial advice on whether this will be sustainable for you.

## Future costs if you need to extend your lease term

All shared ownership homes are sold as leasehold, even houses. You may need to extend the term of your lease. This is because a short lease can affect the value of your home and can make it more difficult to sell or get a mortgage on the home. A short lease is generally considered as one with 80 years or less left on the term, although different lenders have different criteria. It can be significantly more expensive to extend a short lease.

<b>Lease term</b>	996 Years
<b>Maximum share you can own</b>	You can buy up to 100% of your home.
<b>Transfer of freehold</b>	You are not able to obtain the freehold

Shared owners who own less than 100% of their home do not currently have a legal right to extend their lease term. Your landlord will confirm their policy on lease extensions for shared owners including how they apportion costs.

For more information see section 2.5 in the 'Key information about shared ownership' document.
