THE OPTION YOU NEVER KNEW EXISTED

Shared Ownership enables you to buy an initial share of a property and pay a subsidised rent on the rest, meaning you can get into home ownership in manageable stages and don't take on more of a financial commitment than you can afford.

If buying a home seems out of reach, Shared Ownership* could be the answer and offers a great alternative to renting.

Initial shares of between 25%-75%** of our properties are available, you will pay a subsidised rent on the remaining share. Shares offered on the homes are based on a business need. In the future you can purchase further shares in your home,** or sell your share and move on.

EXAMPLE BASED ON A TWO BEDROOM HOUSE****

40% SHARE - £108,000

60% SHARE - £162,000

- Buy a share of the property between 25-75%
- Pay rent on the share you don't own

*Price based on a 2 bedroom house. **Shares offered are based on business need. ***Some properties are restricted to the level of share you can purchase. ****Example only.

Kerry Gaylor and her partner James were living with his parents in Bedford for more than two years in a bid to save enough money to buy their own home.

The couple soon discovered that Shared Ownership would be the only way they could afford the home they desired. Within six months of looking for a Shared Ownership home, the couple moved into their spacious three-bedroom, three-storey home in St Neots, Cambridgeshire.

Without Shared Ownership we would never have been able to afford a house of this size. Domovo were really accommodating, and the process was really easy.
