## THE OPTION YOU **NEVER** KNEW EXISTED.

# MOVING TO NORTHSTOWE FOR A FRESH START.

When renters Josie and Josh Drury discovered they were expecting a baby, they decided it was the right time to finally look at buying their own home.

Josie said: "We moved into our first house after we got married but during the pandemic the rent kept increasing and when we found out I was pregnant we realised we definitely wouldn't be able to afford to continue renting and would need more space." With the support and encouragement of both their parents, the couple decided to go ahead and soon found a home at Northstowe. Luckily a work colleague and friend of Josie's was already in the process of buying a shared ownership home through bpha and told them all about how it worked.

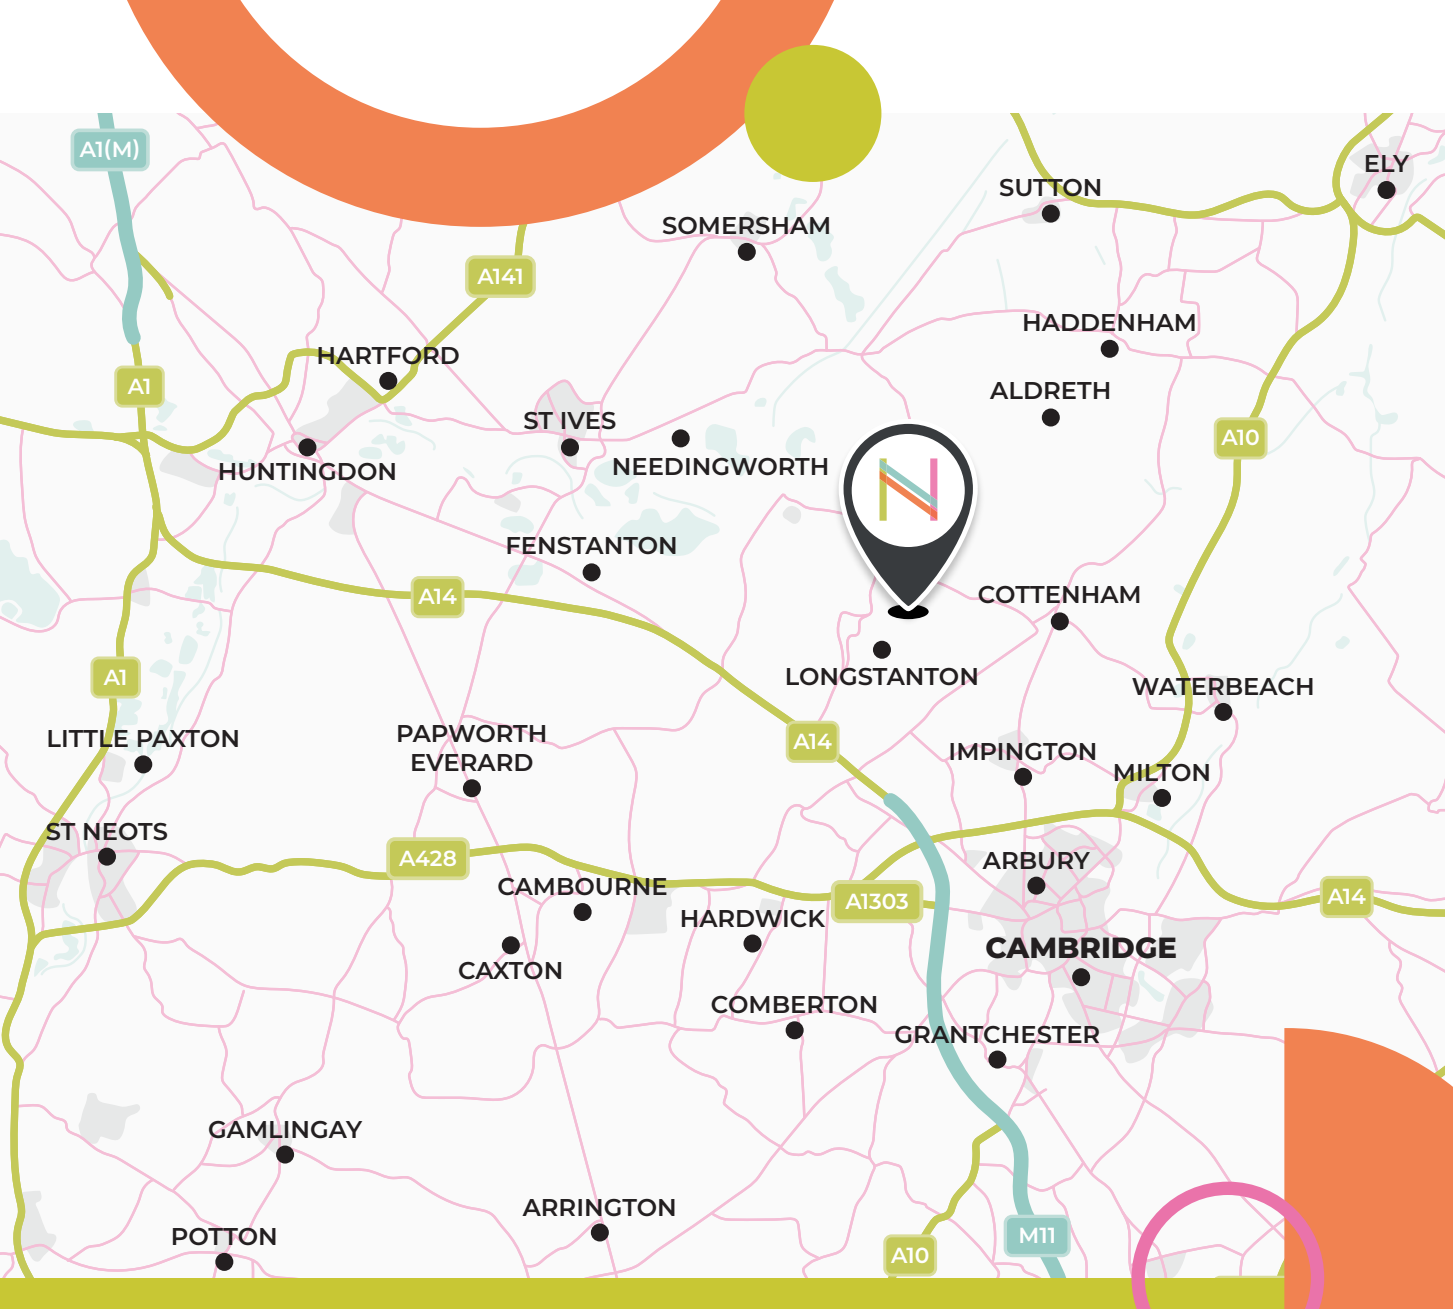

The move has also made the couple financially better off, as the monthly cost of mortgage and rent on their home is around £200 less than they paid in rent at their previous property. "It has always been our dream to own our home. We are not big earners, so to be on the property ladder is so lovely."

As Josie knew she would be on maternity pay, the couple decided to buy just 35% shares of the £365,000 house, with a plan to hopefully buy more over time.

Speaking about the process, she said it was really quick, simple and easy for them. "The process went really well, with no delay. The thing that took the most time was getting the finance and mortgage set up." The team at Domovo worked really hard to ensure the couple were in their home before Annabelle was born. "The staff were really friendly and quick at responding," said Josie, 29. "We were blessed in that way, they were really efficient."
