Energy performance certificate (EPC)			
10 St. Nicholas Close Kennett NEWMARKET	Energy rating	Valid until:	16 September 2034
CB8 7FG		Certificate number:	9535-3040-0201-4454-2204
Property type	Semi-detached house		
Total floor area	82 square metres		

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is C. It has the potential to be B.

See how to improve this property's energy efficiency.

Score	Energy rating		Current	Potential
92+	Α			
81-91	В			91 B
69-80	С		76 C	
55-68	D			
39-54	E			
21-38	l l	F		
1-20		G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Timber frame, as built, insulated (assumed)	Good
Roof	Pitched, 300 mm loft insulation	Very good
Window	Fully double glazed	Good
Main heating	Ground source heat pump, radiators, electric	Average
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Average
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	Solid, insulated (assumed)	N/A
Secondary heating	None	N/A

Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

· Ground source heat pump

Primary energy use

The primary energy use for this property per year is 142 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend **£999 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £176 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 4,067 kWh per year for heating
- 1,551 kWh per year for hot water

Impact on the envir	onment	This property produces	2.0 tonnes of CO2
This property's environmer C. It has the potential to be		This property's potential production	0.7 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		These ratings are based on assumptions about average occupancy and energy use.	
An average household produces	6 tonnes of CO2	People living at the property may use dif amounts of energy.	rty may use different

Steps you could take to save energy

Step	Typical installation cost	Typical yearly saving
1. Heating controls (zone control)	£350 - £450	£59
2. Solar water heating	£4,000 - £6,000	£117
3. Solar photovoltaic panels	£3,500 - £5,500	£533

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Philip McGrory
Telephone	07702085538
Email	phil@pdea.biz

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/019906
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	17 September 2024
Date of certificate	17 September 2024
Type of assessment	RdSAP
