Predicted Energy Assessment
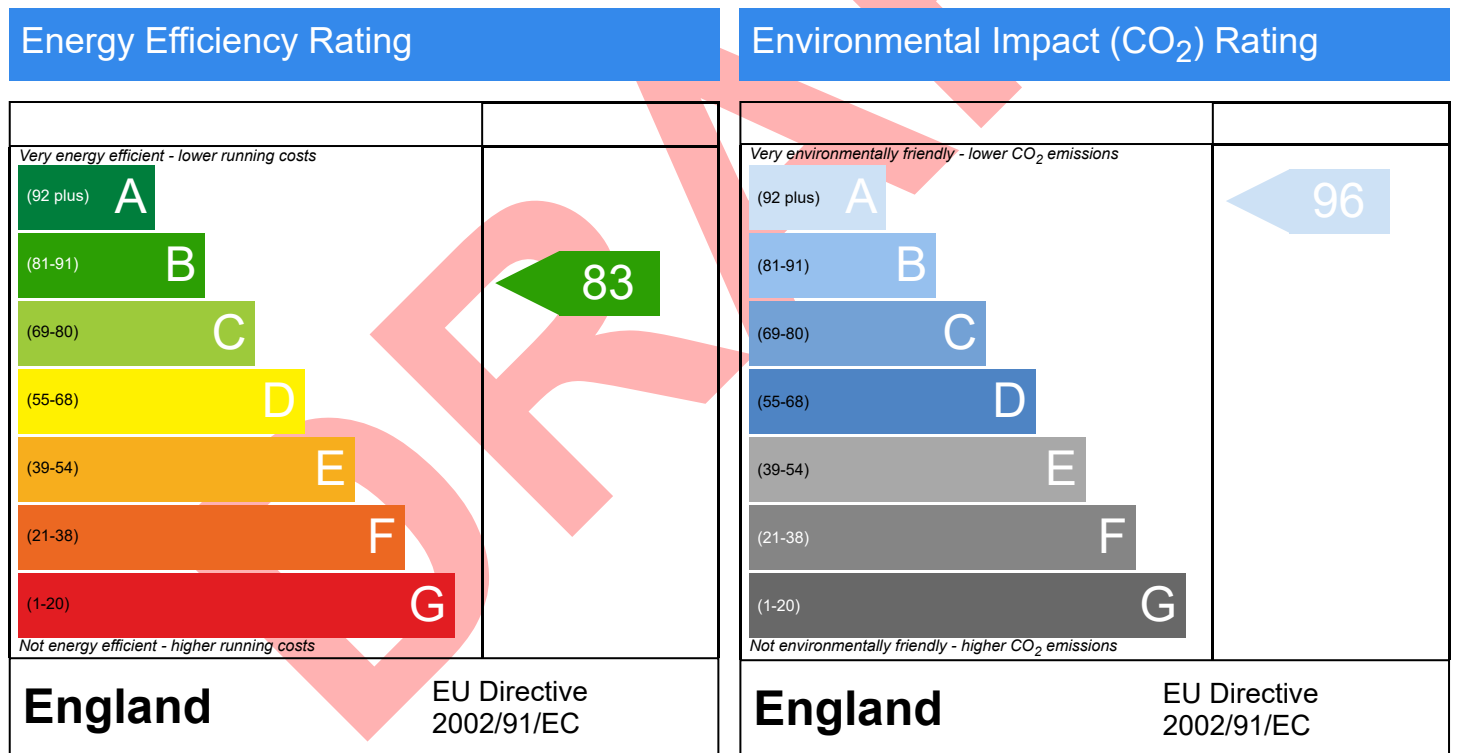

elmhurst energy

Plot 31, School Lane, Roxton, MK44 3DR

Dwelling type: House, Semi-Detached
Date of assessment: 25/05/2023
Produced by: Dalton Barratt
Total floor area: 89 m²
DRRN:

This document is a Predicted Energy Assessment for properties marketed when they are incomplete. It includes a predicted energy rating which might not represent the final energy rating of the property on completion. Once the property is completed, this rating will be updated and an official Energy Performance Certificate will be created for the property. This will include more detailed information about the energy performance of the completed property.

The energy performance has been assessed using the Government approved SAP 10 methodology and is rated in terms of the energy use per square meter of floor area; the energy efficiency is based on fuel costs and the environmental impact is based on carbon dioxide (CO2) emissions.

Energy Efficiency Rating

Very energy efficient - lower running costs

(92 plus)	A
(81-91)	B
(69-80)	C
(55-68)	D
(39-54)	E
(21-38)	F
(1-20)	G

83

Not energy efficient - higher running costs

England   EU Directive 2002/91/EC

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

Environmental Impact (CO_2) Rating

Very environmentally friendly - lower CO_2 emissions

(92 plus)	A
(81-91)	B
(69-80)	C
(55-68)	D
(39-54)	E
(21-38)	F
(1-20)	G

96

Not environmentally friendly - higher CO_2 emissions

England   EU Directive 2002/91/EC

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO_2) emissions. The higher the rating the less impact it has on the environment.
