# Summary of costs

The information in this document is for the **standard shared ownership model**. There are variations of shared ownership which have different features. For more information on the variations, see the 'Key information about the home' document.

When you are looking for shared ownership homes, you should always check the Key Information Document to see which model covers that specific home.

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should take independent legal and financial advice.

This summary of costs document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

It does not form part of the lease. You should carefully consider the information and the accompanying lease and discuss any issues with your legal adviser before signing the lease.

Failure to pay your rent, service charge, or mortgage could mean your home is at risk of repossession.

The costs in this document are the costs as at the date issued. These will increase (typically on an annual basis) and you should take financial advice on whether this will be sustainable for you.

	£404.40 a month

## **Rent review**

Rent review period	Your rent will be reviewed every year in February commencing from the 1 <sup>st</sup> April each year.
Rent review	The maximum amount your rent can go up by is the same as the percentage increase in the <u>Retail Prices Index</u> (RPI) for the previous 12 months plus 0.5%.
	Your landlord will notify you each year what this amount will be and tell you the date from which the new rent will be payable.
	You should expect your rent to go up by the maximum amount possible each year when it is reviewed.
	Example rent increases

The example below illustrates how the Rent shown in this document (£381.56 per month) would rise during the first five Review Dates based on an example percentage increase each year of 6%

# Future costs if you buy more shares

Home valuation	If you choose to buy shares of 10% or more, you'll need to pay in full for a valuation by a surveyor who is registered with the <u>Royal Institution of Chartered Surveyors</u> (RICS). The estimated current cost is £180 - £330 Inc VAT You will need to arrange the valuation. You can <u>find a registered surveyor on the RICS website</u> . For more information, see section 6, 'Buying more shares', in the 'Key information about shared ownership' document.
Share purchase administration fees	Buy shares of 10% or more - £200.00 + VAT (£240.00)

Your legal adviser's fees	If you require legal advice when buying more shares, you are responsible for paying your own legal fees.
	Regardless of whether you require legal advice, it is likely that your mortgage lender will require you to instruct a suitably qualified legal adviser if you are borrowing money to fund any purchase of additional shares.
	The landlord is responsible for paying their own legal fees related to share purchase transactions.

### Future costs if you sell your home

Landlord's current selling fee	1%+VAT of the market value Your landlord may charge a fee for marketing and finding buyer for your home when you sell. If they do not find a buyer, this will not apply.	
Estate agent's fee	You will only pay this if you use an estate agent. You can usually negotiate their fee. You can normally only choose to use an estate agent when the Landlord's nomination period has ended. See the 'Landlord's nomination period' section of the 'Key information about your home' document for more information.	
Your legal adviser's fees	You are responsible for seeking legal advice when you sell your home. You will need to pay your legal fees.	
Home valuation	You will arrange the valuation from a surveyor who is registered with the Royal Institution of Chartered Surveyors (RICS). You are responsible for paying the cost.	

### Future costs if you need to extend your lease term

All shared ownership homes are sold as leasehold, even houses. You may need to extend the term of your lease. This is because a short lease can affect the value of your home and can make it more difficult to sell or get a mortgage on the home. A short lease is generally considered as one with 80 years or less left on the term, although different lenders have different criteria. It can be significantly more expensive to extend a short lease.

Lease term	81 Years
Maximum share you can own	You can buy up to 100% of your home.
Transfer of freehold	At 100% ownership, the freehold will transfer to you

Shared owners who own less than 100% of their home do not currently have a legal right to extend their lease term. Your landlord will confirm their policy on lease extensions for shared owners including how they apportion costs.

For more information see section 2.5 in the 'Key information about shared ownership' document.
