How Does Shared Ownership Work?

Shared ownership is a government funded homeownership scheme, which makes it easier for eligible applicants to get onto the property ladder. The scheme allows buyers to purchase a share in the property and then pay a subsidised rent on the remainder of the shares not owned. Shares can be bought between 10% and 75%.

In the future, more shares can be purchased until the property is owned outright. The scheme gives first time buyers and those that do not currently own a home the opportunity to purchase a share in a property.

Easy Connections & Endless Adventures!

Southend-on-Sea has excellent transport links, with an extensive network of local bus and train services. Vernon Court is close to two railway lines providing direct connections to London.

Southend Victoria to London Liverpool Street is operated by Greater Anglia with the closest station of Prittlewell just a 10 minute walk away.

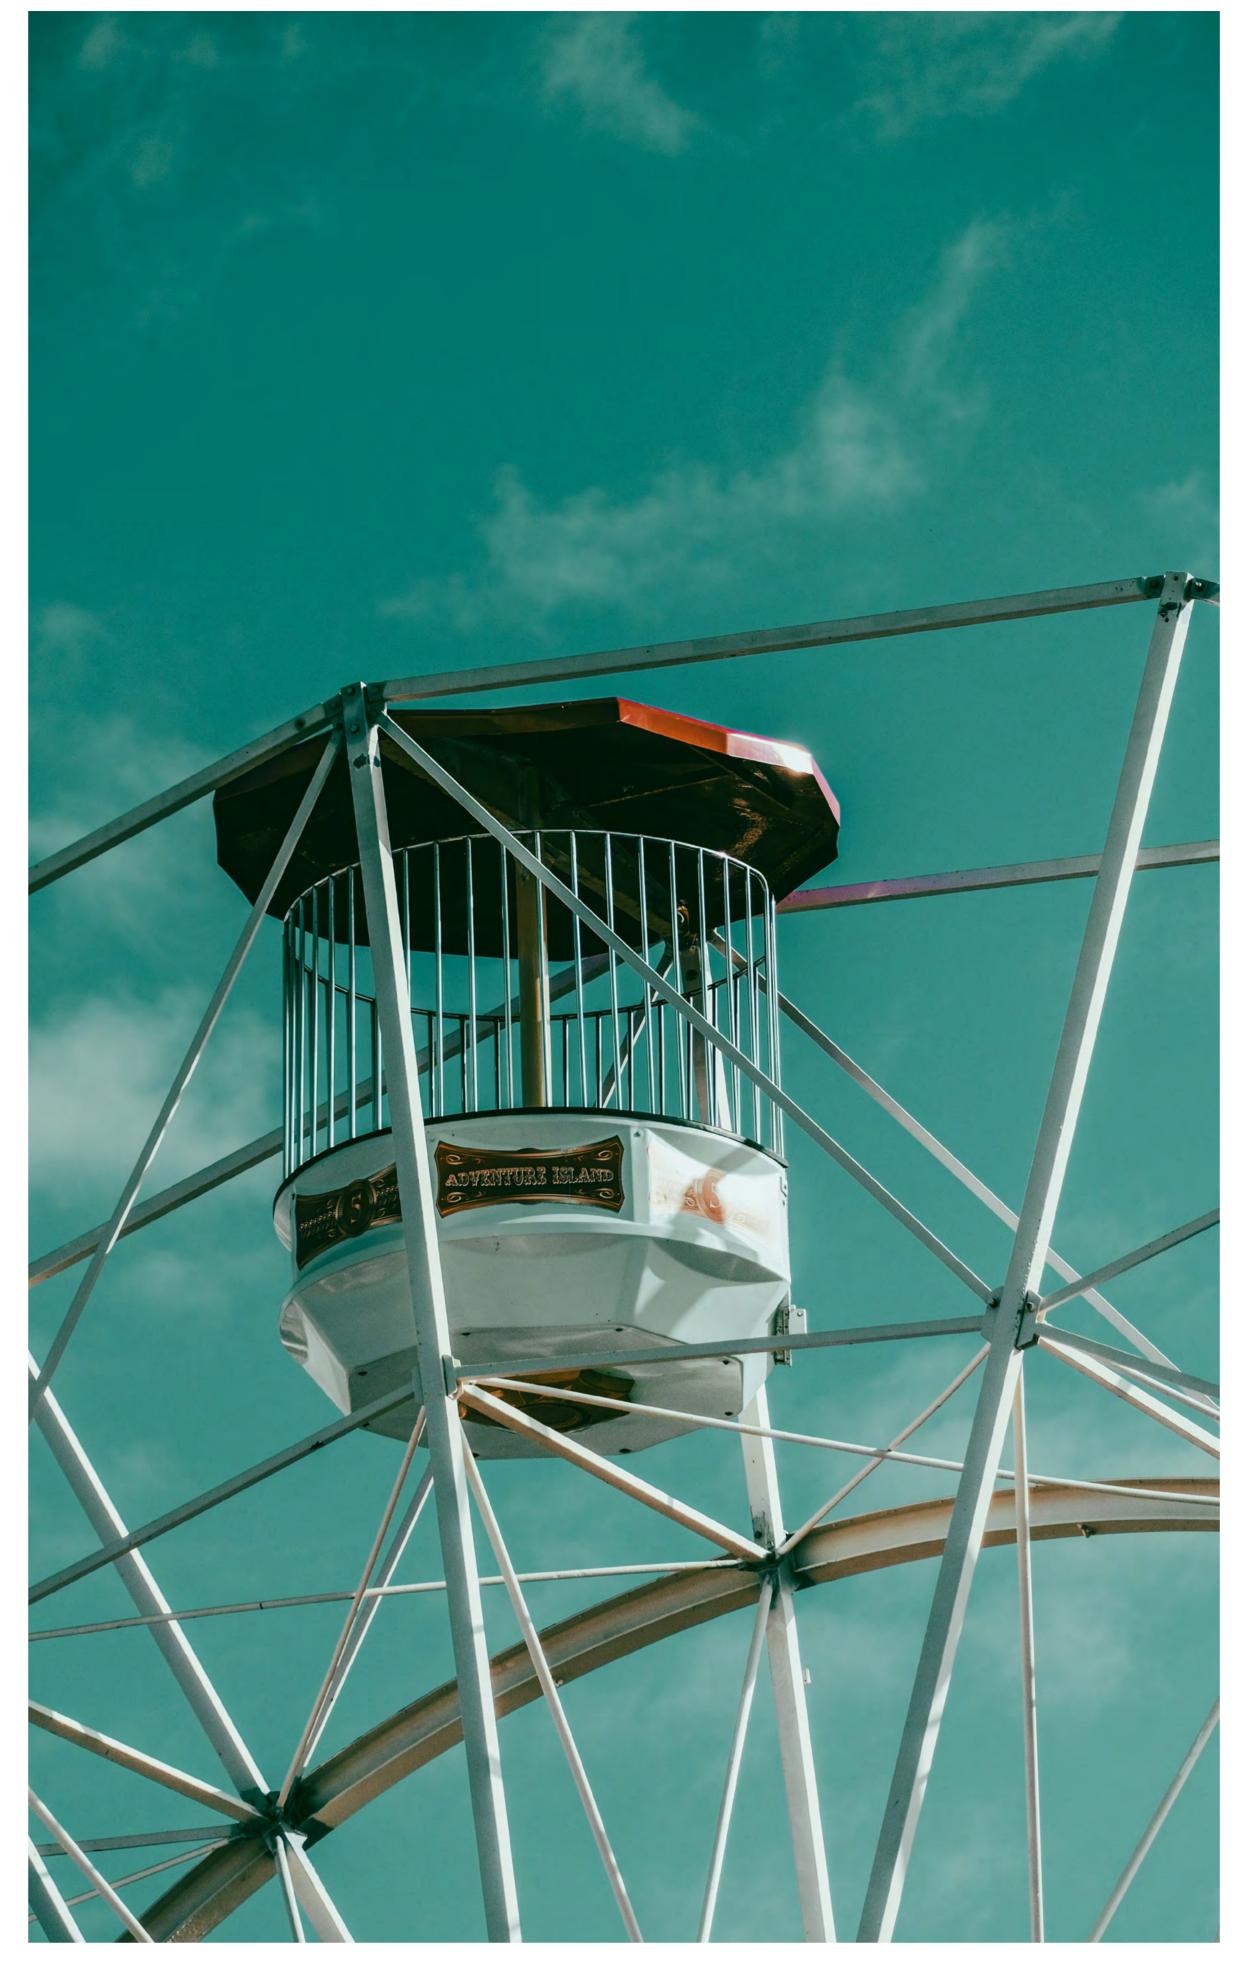

C2C runs an alternative route from Shoeburyness to Fenchurch Street with Southend Central being the closest station to Vernon Court.

London Southend Airport is only an 8 minute drive away. The airport has expanded significantly over recent years and now offers frequent flights both nationally and internationally, with new destinations being constantly added.
