English Cymraeg

# Properties can be let if they have an energy rating from A to E.

Rules on letting this property

You can read guidance for landlords on the regulations and exemptions.

# This property's energy rating is B. It has the potential to be B.

**Energy rating and score** 

See how to improve this property's energy efficiency.

**Potential** Score | Energy rating Current 92+ B 81-91 83 B 83 B 69-80 55-68 Ε 39-54 21-38 1-20

The graph shows this property's current and potential energy rating.

the rating and score, the lower your energy bills are likely to be. For properties in England and Wales:

Properties get a rating from A (best) to G (worst) and a score. The better

 the average energy rating is D • the average energy score is 60

# performance Features in this property

Breakdown of property's energy

#### Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their

condition. Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

**Description** Rating **Feature** 

Secondary heating	INOTIE	N/A
Roof	(other premises above)  None	N/A
Air tightness	Air permeability 2.8 m³/h.m² (as tested)	Very good
Lighting	Low energy lighting in all fixed outlets	Very good
Hot water	Community scheme	Very good
Main heating control	Charging system linked to use of community heating, programmer and TRVs	Good
Main heating	Community scheme	Very good
Windows	High performance glazing	Very good
Floor	Average thermal transmittance 0.20 W/m²K	Very good
Walls	Average thermal transmittance 0.17 W/m²K	Very good

#### Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in

Low and zero carbon energy sources

this property: Community combined heat and power

Primary energy use The primary energy use for this property per year is 59 kilowatt hours per square metre (kWh/m2).

About primary energy use

# How this affects your energy bills

An average household would need to spend £219 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

living at the property may use different amounts of energy for heating, hot water and lighting.

This is **based on average costs in 2018** when this EPC was created. People

You could **save £0 per year** if you complete the suggested steps for

**Heating this property** Estimated energy needed in this property is:

# • 1,348 kWh per year for hot water

• 780 kWh per year for heating

improving this property's energy rating.

#### Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. **Carbon emissions**

changes. This will help to protect the environment.

Impact on the environment

6 tonnes of CO2 An average household produces 0.5 tonnes of CO2 This property produces

This property's environmental impact rating is A. It has the potential to be A.

0.5 tonnes of CO2 This property's potential production

energy use. People living at the property may use different amounts of energy.

These ratings are based on assumptions about average occupancy and

You could improve this property's CO2 emissions by making the suggested

### Advice on making energy saving improvements Get detailed recommendations and cost estimates

Steps you could take to save energy

The assessor did not make any recommendations for this property.

Help paying for energy saving improvements

Who to contact about this certificate

You may be eligible for help with the cost of improvements:

• Heat pumps and biomass boilers: Boiler Upgrade Scheme

### **Contacting the assessor** If you're unhappy about your property's energy assessment or certificate, you

# can complain to the assessor who created it.

**Email** 

**Emily Mansfield** Assessor's name 01322 289977 **Telephone** 

Contacting the accreditation scheme If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

emily.mansfield@whitecode.co.uk
