

Key information about the home

Key information about the home

There are variations of shared ownership models which have different features. The model of shared ownership may vary depending on:

- what rules were in place at the time the home was funded or planning permission granted
- where the home is located
- whether the home is for a specific group of people

The table below highlights the key features of common shared ownership schemes. The information in this document is for the standard model shared ownership.

Shared ownership model	Older model shared ownership	Standard model shared ownership	New model shared ownership
Minimum initial share	25%	25%	10%
Lease length	Typically, leases were issued for 99 years from new	Leases are for a minimum of 99 years from new but typically at least 125 years	Leases will be for a minimum of 990 years from new
Initial repair period	No	No	Yes
Buying more shares - minimum purchase	10% or 25%	10%	5%
1% share purchase	No	No	Yes
Landlord's nomination period	8 weeks or 12 weeks	8 weeks	4 weeks

When you are looking for shared ownership homes, you should always check the Key Information Document to see which model covers that specific home.

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should take independent legal and financial advice.

This key information document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference. This document 'Key information about the home' is a summary and you should consider the information in 'Summary of costs' and 'Guide to shared ownership' before making a decision.

This does not form part of the lease. You should carefully consider the information and the accompanying lease and discuss any issues with your legal adviser before signing the lease.

Failure to pay your rent, service charge, or mortgage could mean your home is at risk of repossession.

The costs in this document are the costs as at the date issued. These will increase (typically on an annual basis) and you should take financial advice on whether this will be sustainable for you.

	Sarsen Court, Horton Avenue, Devizes, Wiltshire, SN10 2AZ Under a shared ownership lease, you pay for a percentage share of the market value of a home. You enter into a lease agreement with the landlord and agree to pay rent to the landlord on the remaining share.
Landlord's nomination period	When you give the landlord notice that you intend to sell your share in your home, the landlord has 8 weeks to find a buyer. The landlord may offer to buy back your share, but only in exceptional circumstances and if they have funds available. If they do not find a buyer within 8 weeks, you can sell your share yourself on the open market. For example, through an estate agent.
Pets	You are allowed to keep pets in your house. The landlord is unlikely to allow permission to keep pets in flats that form part of a block but exceptions can sometimes be made. All permissions must be sought prior to occupation.
Subletting	 You can rent out a room in the home, but you must live there at the same time. You cannot sublet (rent out) your entire home unless you either: own a 100% share; or have your landlord's permission which they will only give in exceptional circumstances (see section 1.5 in 'Key information about shared ownership' document) and have your mortgage lender's permission if you have a mortgage
