1, Heather Road Emersons Green BRISTOL BS16 7NL **Energy** rating

B

Valid until

20 August 2029

Certificate number

8301-4196-6339-1927-6813

Property type

Ground-floor flat

Total floor area

62 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

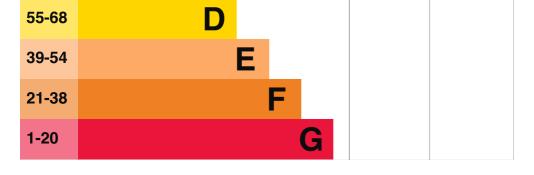

You can read guidance for landlords on the regulations and exemptions.

Energy rating and score

This property's energy rating is B. It has the potential to be B.

See how to improve this property's energy efficiency.

Score	Energy rating	Current	Potential
92+	A		
81-91	В	83 B	83 B
69-80	C		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Windows

Main

heating

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could

not inspect.		
Feature	Description	Rating
Walls	Average thermal	Very

Feature	Description	Rating
Walls	Average thermal transmittance 0.26 W/m²K	Very good

How this affects your energy bills

An average household would need to spend £307 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £0 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2019** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 1,931 kWh per year for heating
- 1,461 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is B. It has the potential to be B.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces

6 tonnes of CO2

This property produces

1.0 tonnes of CO2

This property's potential production

1.0 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

The assessor did not make any recommendations for this property.
