A development by

A woman with long, wavy white hair is sitting on a light-colored sofa. She is wearing a blue and white floral patterned top and dark blue trousers. She is holding a white mug in her right hand and a magazine in her left hand. The magazine has a red cover with the word 'lead' visible. She is smiling and looking down at the magazine. The background is a blurred indoor setting with a kitchen area visible on the right and a large window or glass door on the left showing greenery outside.

Mill View offers the perfect blend of stylish and comfortable living combined with the practicalities you need, ensuring you can live life to the full.

Setting the standard for independent living

Behind the privacy of your own front door, the level of detail and finish gives the luxurious look and feel you expect. The layout of each apartment has been thoughtfully considered, with spacious and practical open-plan living areas and widened doorways to ensure ease of access.

With their generous proportions and high quality specification, the apartments at Mill View have been designed to enable you to live independently and enjoy your time, however you choose to spend it.

Interiors have been
designed with accessibility
and practicality in mind,

think reassurance

Enjoy the independent living that you have always dreamed of, with the confidence that support is on hand – should you ever need it.

Relax in the privacy and security
of your own home with the
reassurance that you can continue
to live independently.

Discover the freedom to live your way

We create the setting for the life you want, offering care and support should you need it. At Mill View you will benefit from a 24-hour emergency response service, so both you and your loved ones can have peace of mind that help will be there when needed. Your care and support can be tailor-made to suit your needs and adapted at any time in the future if needed.

In order to facilitate the extra care offering, all residents pay the on-site care provider an hour's fee per week per apartment. This does not entitle residents to use one hour of support per week, but is there to ensure that care staff are always on site in case of emergencies.

If the thought of moving feels overwhelming, then Mill View can assist you - we will contribute towards the cost of supporting you when moving from your home to Mill View.

There is also a handyman to then help when residents have moved in - putting up curtains, pictures or fixing a bookcase against a wall.

Renting at Mill View

Once you make your enquiry, the Scheme Manager will be in touch to talk through some initial questions. Then a few checks will be made on:

- Any current care packages in place
- Whether you have a 'local connection'
- Your income sources
- Your individual housing needs

Following these checks, a pre-verification assessment will be carried out, followed by a suitability decision, by a panel that includes the Scheme Manager and representatives from the Care Team and Care Management Team. If an offer is appropriate, the Scheme Manager will make arrangements with you to agree a date for you to move into your new home.
